

Let's work together to take care of your financial and personal health

How can you best serve your clients?

Who can you turn to if you have any issue with the HSA banking account?

The reality is that there is no relationship between the broker and the big banks. That is why Walsh Benefits is pleased to be working in conjunction with Two River Bank in offering Health Savings Accounts for individuals and business.

It is typical that it can take up to 30 days to open an account. Two River will get your clients account open in a couple of days (depending, of course, on paperwork submission).

If you or your clients have any question or issues, Two River Bank is committed to helping you resolve them in a timely manner.

If you are enrolled in a High Deductible Health Plan, or thinking about changing to a plan that can take advantage of an HSA, Two River Bank can provide:

- Personal attention
- Dedicated broker support
- Easy application process
- Interest bearing accounts
- Free Debit Card and Checks

Please call us at Walsh Benefits for more details.
